leonmichalak6@gmail.com - 07498 610586

Full stack ■ Frontend ■ Backend ■ Software patterns

A full stack developer looking to enter the web development industry. Experience through creating exciting projects and exploring different technologies.

Technical Skill Set

- HTML, CSS, JavaScript
- React
- Node.js
- Express.js
- MongoDB
- Git/GitHub
- Creating and using API's
- Analysing and understanding documentation

Professional Experience

Currently have no professional on the job experience. I've been practicing the above skills for long enough now, and I feel I can truly benefit and add value to a company or a client. These skills are all modern and relevant skills used widely in the industry.
